📁 Profile

Graphic Design/Art Director in Miami. Moved to London, England and worked at top ten Ad agency TBWA (Omnicom). Early 2000s transitioned to UI/UX Design.

Guru-level with Adobe CS, including InDesign, Sketch, InVision, Axure, Affinity Suite, Bootstrap. Love reducing complexity to elegance. When designed well, the UI seems inevitable. Learned HTML/CSS to own design, JavaScript a little thin.

Lottery Evolved

mLotto™ is the end-to-end platform that ushers state lotteries — and their games — into the mobile age. Powered by a national leader in government payments, mLotto creates an environment where gameplay is not only intuitive and fast, but also in full compliance with state and federal guidelines.

As a white-label platform, mLotto allows each lottery to maintain the integrity of its brand while dramatically expanding its reach into the mobile space. mLotto's development capability and customer service engine ensure that this is accomplished with little to no effort by the agency. A lottery platform for the digital age

mLotto™ is the end-to-end solution that ushers state lotteries — and their games — into the age of the mobile web. Powered by a national leader in consumer-to-government payments, mLotto creates an environment where gameplay is not only intuitive and fast, but also in full compliance with state and federal guidelines.

As a white-label platform, mLotto allows each lottery to maintain the integrity of its brand while dramatically expanding its reach online or on the mobile web. mLotto's development capability and customer service engine ensure that this is accomplished with little to no effort by the agency. This makes mLotto a safe bet for any lottery.

66 Nearly half of all Americans — 46% — own a smartphone.⁹⁹
mLotto gives your lottery the tools to reach this population, and the technology to convert them effectively.
<http://www.pewresearch.org/Reports/2012/Smartphone-Update-2012/Findings.aspx>

mWallet

With the latest in payment processing technology and a comprehensive licensing and compliance apparatus, mLotto creates convenience for the lottery customer while ensuring security for the lottery agency. Depending on individual state regulation, the mWallet can be funded using a credit/debit card, ACH transfer, and/or cash. mLotto adheres to PCI data security standards, is a registered Money Services Business (MSB), and holds money transmission licenses in each applicable state.

Customer Service

While the payment process is designed to be as seamless and intuitive as possible, customers also have access to 24 hour support through an in-house call center. mLotto adheres to responsible gaming standards at every consumer touchpoint, including online, through the mobile app, and in the call center.

Geolocation

When accessed through a mobile device, the application automatically detects the player's location using the Global Positioning System (GPS) embedded in the mobile device. This process ensures that no lottery tickets are purchased outside a participating state's borders in violation of federal law.

Age Verification

Players must be of age to complete registration and play a game. During mobile gameplay, age is verified using the mobile device's camera to capture an image of the 2-D barcode on the player's driver's license. The app then validates the information from the scanned barcode, granting (or denying) the player access.

Pool Play

Social integration enables Pool Play for all games and acts as a springboard for viral adoption.

Customer Service Contest—The Melée in Miramar
On the surface, it's a calm call center, the kind of gently buzzing cubicle farm that you'd find in office parks around the world. Look a little closer, however, and you'll find that the JPay CS Department is a seething cauldron of competition—a Coliseum of Customer Service—with agents furiously preparing to go *name a menu* in a battle to deliver the ultimate customer experience.
Beginning the last week in April, each customer service agent will compete based on their performance standards. The week's winner becomes eligible to win the monthly title. Though judged individually, the winning agents represent not only themselves, but also their team.
Yet it isn't personal or tribal glory that drives these CS gladiators, rather a deep commitment to the exemplary service JPay has a reputation for delivering. By striving to be the best, every agent is a champion.
Prizes for the weekly and monthly winners have yet to be determined. Watch this space every month for the announcements and updates... and may the best agent win!

Lebron Who?

A few JPay would-be bullies got together for a pickup game last month. Rosina, citing her Bronx cred, dropped a triple dunk and posterized Pico on a ferocious dunk.
"Pico has noooooooo game moving forward if found."

Workin' Overtime
Remember Ryan telling the team at the 1Q meeting that if everyone committed to making JPay 1% better every shift, the company would be 150% stronger every day? Well a few JPay-ers did their 1% bit—and a good bit more—the last weekend
