> User can add times and venues with Google Map.
> Designed and produced project,
> ERD, wireframe, and dependency graph.
> Full CRUD functionality
> React & Reactstrap
> Responsive design

> ***Group project:* Dashboard**

https://github.com/midlantica/nutshell-veridian-vicuna

> 100% remote team project.
> Github Source Control and Project Manangement.
> Full CRUD functionality.
> Ability to login and make news items.
> Set up tasks, set up events, sort by date
> Produced News section and the overall design.
> Component based JavaScript

👤 Profile

Love problem solving. Solid with HTML/CSS/SASS, Bootstrap and Sketch/Figma. Love to whip up wireframes and prototypes, and lean UX code. Reducing UX complexity to elegance is the name of the game. When the UX is done right, the design seems inevitable. High proficiency with Adobe CS, including InDesign, vecor art. Love Typography.
